Good Afternoon Arturo,

We have a 3 wooden slap that has been damage. The wooden slabs in located right in front of Councilmember's District office in Highland Park(5577 N. Figueroa St). We have placed a small orange cone on top of the hole(picture attached) the picture does not show the size correctly. Can you get a crew member to come fix this as soon as possible.

Good morning Arturo,
Yesterday we took care of the two areas of concerned and walked the entire sites and noticed that there were other areas that needed repair. This morning I have a two man crew repairing these areas.

On a separate note, we already prepared the other tile sample that we picked up from SWA on Friday and is ready for testing. We will make arrangements to deliver it to Austin this morning.

Thank you

Thank you Esteban. We really appreciate it.

The council office received another complaint regarding the cut out located at the SE corner of Avenue 57 and Figueroa . It seems that the wood that was added is not supporting the weight. If you can include this, that would be great.

Thanks

Hello,

Would it be possible to check a collapsing tile located on Avenue 59, in front of the Monarca Bakery? Misty from the North Figueroa Association was alerted of this by the council office. The council office has been receiving complaints about the wooden cover. Please see picture below.

Thank You.
